

Arbaz Ali

IMPLEMENTATION AND SOFTWARE AUTOMATION ENGINEER

PROFILE

Results-oriented quality tester with a strong proficiency in testing, seeking a challenging career with a progressive organization that offers an opportunity to leverage my technical skills and abilities in the realm of quality assurance.

EXPERIENCE

2024 (01 January) - 2024 (Present)

TPS - WORLDWIDE

IMPLEMENTATION AND SOFTWARE AUTOMATION ENGINEER

- Successfully utilize Oracle for database operations, writing efficient queries to ensure optimal data handling and retrieval.
- Conduct comprehensive API testing using Postman, ensuring the reliability and functionality of APIs in diverse scenarios.
- Proficiently manage backend processes on Linux using Putty, ensuring the seamless integration of software components.
- Execute deployment procedures on MR environments, meticulously validating project functionality and performance.
- Facilitate the smooth transition of projects from testing to production environments, ensuring minimal disruption and optimal performance.
- Expert in custom testing, specializing in JMeter for stress and load testing. Identify and resolve performance bottlenecks to ensure optimal system resilience and responsiveness.
- Collaborate with cross-functional teams to identify and resolve issues, ensuring a collaborative and efficient work environment.
- Maintain and enhance quality assurance processes, contributing to the overall improvement of software development life cycle.
- Implemented automated test scripts using Selenium WebDriver for functional and regression testing of web applications.
- Created and maintained a BDD (Behavior-Driven Development) framework using Gherkin language to facilitate collaboration between technical and non-technical stakeholders.

2023 (28 August) - 2023 (31 December)

SYMITS - IT SOLTUTIONS

SOFTWARE QUALITY ASSURANCE ENGINEER

- Perform Regression Testing in Detail on UI to Find Every Possible Bug
- Creating reports which contain a summary of test activities, final test result and assessment of how well the testing has been performed using ExtentReport.

CERTIFICATIONS

- CCNA
- MS OFFICE
- GRAPHIC DESIGNING
- QA Automation Testing with jatin
